**RESOLUTION ON THE REPORTS ON THE OPERATION OF THE CALCUTTA
IMPROVEMENT TRUST, 1921-22, 1922-23, 1923-24, 1924-25 and 1925-26.**

CALCUTTA, THE 17TH NOVEMBER 1926.

RESOLUTION—No. 3942M.

READ—

The reports on the operation of the Calcutta Improvement Trust, 1921-22,
1922-23, 1923-24, 1924-25 and 1925-26.

1. **General.**—Government (Ministry of Local Self-Government) in 1922 reviewed the work of the Improvement Trust for the triennium ending 1920-21; it is now proposed to review briefly its operations during the succeeding quinquennium. There has been steady progress during this period, although the circumstances, which for so many years past have retarded the operations of the Trust, have not yet ceased to exercise an adverse influence. During the long years of the war, the cost of engineering materials, even when they were obtainable, rose to great heights, while the flotation of loans was impossible. The Trust's investments in Government securities were depreciated, and there was prolonged litigation regarding its rights to acquire surplus lands. The improvement of the outlying areas such as Maniktala was postponed, as doubts were thrown upon the legal capacity of the Trust to undertake schemes outside Calcutta; this delay, though unavoidable, has proved most unfortunate, and the work of the Trust has undoubtedly suffered from its inability in the early years of its existence to prepare Maniktala for the reception of the people displaced from congested areas in Calcutta proper. When building ceased to keep abreast of the demand for accommodation, the Trust was compelled to suspend some of its improvements in order to meet the demand for re-housing schemes which, for the most part, though several experiments were made, have been unpopular with the classes for whom they were designed. With the end of the war came the land boom which ended in September 1920. The Trust was compelled by the force of circumstances to press forward with its programme, so long held in abeyance, at the very moment when land values had soared to their greatest heights, and it is now in the position of having to sell its large holdings of surplus lands when Calcutta is still suffering from the aftermath of unbridled land speculation. For some years the Trust had carried on its work without resort to borrowing, relying for the cost of capital works on the annual surplus of receipts over expenditure. The large balances, however, which were built up from surpluses in the early years of the Trust, have been exhausted, and in recent years the Trust has relied mainly on loans for its capital expenditure and has thus made large inroads on its borrowing capacity. In a later paragraph of this review, the financial position of the Trust will be examined in more detail; it is sufficient to mention at this point that in 1922 the Trust came to the decision that the development of the suburban areas, Cossipore-Chitpore and Maniktala, which have since been incorporated in Calcutta, was no longer financially possible, although on the other hand it was decided that a cautious beginning might be made with the improvement of Barabazar. It will be seen hereafter that Barabazar still presents special problems, while the desirability of presenting Cossipore-Chitpore and Maniktala with a drainage system has again been forced on the attention of the Trust by proposals to modify and expand the drainage system of Calcutta which would provide for these two suburbs the outfall they require.

2. Improvement schemes.—During the years under review, the Trust has undertaken several improvement schemes of the first importance. The chief of these was the continuation of the great north and south thoroughfare (Central Avenue) to Chowringhee. The execution of this scheme began when land values were high, and large amounts have been locked up in the acquisition of surplus lands, which at the moment are not readily saleable. Linked up with this important scheme, is the widening of Bentinck Street, which obtains access to Central Avenue through the widened Sooterkins Lane. Bentinck Street for many years had undergone very little change, but the improvement scheme is likely within a short time entirely to transform the character of this locality. The Improvement Trust has also pressed on with its big scheme for linking up Chetla with the Ballygunge Railway Station, and an insanitary and thinly-populated area is being laid out as a suburb, which before long may rival the improved portion of Bhowanipore. Considerable progress has been made with the execution of Park Street and Theatre Road Extension Scheme, and what was formerly a squalid undrained bustee area has now been laid out on a proper plan, with an adequate system of roads, while the needs of the future have been provided for by means of a large open space. This area before long will be linked up with the Ballygunge maidan by a wide road for which a scheme has recently been sanctioned, and with the widening of Ballygunge Circular Road and Gariahat Road a fine circular route will ultimately be provided between the east of Calcutta and the south of Russa Road. As stated above, Barabazar presents problems which the Trust has not yet been able to solve. A scheme was sanctioned by Government for the improvement of a small part of the area measuring roughly 10 acres. Its net cost was estimated at Rs. 30 lakhs, and as the closely built up area known as Barabazar comprises roughly 100 acres, improvement of the whole on a similar scale might cost anything between 2 or 3 crores. Nor do the difficulties end with the provision of this large amount, since a very much larger sum must be invested in the purchase of lands from which recoupment might only slowly be obtained. The Trust, although the first section of its scheme had been worked out in very great detail and finally sanctioned by Government, was compelled to revise its programme and to defer the execution of this project. It may be, as the Trust has been advised, that improvement schemes in Barabazar can be executed at a comparatively small net cost, but the initial expenditure must be so heavy that the Improvement Trust at present cannot contemplate the execution of a series of ordinary improvement schemes of this locality, such as it has carried out with great success in other parts of Calcutta. Government understand indeed that the Trustees have been forced to the conclusion that their operations in Barabazar must be limited to the provision of some main arterial roads, and that even so, some modifications in the law of betterment may be necessary. In this connection it is pertinent to recognise the assistance which the forces of law and order obtained in the recent riots from the existence of Central Avenue. The operations of the military and the police pivoted in an extraordinary degree on this broad thoroughfare and indicated that the construction of one or two north and south and east and west arterial roads through Barabazar proper would afford material assistance to the authorities in the prevention of disturbances. It is understood that the Improvement Trust is now considering expedients for proceeding with the improvement of Barabazar; the Governor in Council will be glad to give his most careful consideration to any reasonable proposal which the Board may make for the amendment of the law with the object of overcoming the special difficulties of this problem.

Other notable schemes executed or in progress in the years under review were the following, viz :—

(1) the widening of Park Street, the necessity of which has grown more apparent as the street has been steadily transformed from a residential locality into a shopping thoroughfare ;

(2) the continuation of the Diamond Harbour Road widening which has added enormously to the amenities of a particularly squalid neighbourhood

and has extended the traffic facilities for which the new Kidderpore Bridge provided. The improvements effected in the vicinity of the scheme leave the main portion of insanitary Kidderpore untouched, but are a sufficient indication of the wide field which this neglected area offers to the Trust ;

(3) the widening of Dalhousie Square (West) which now carries a volume of traffic that formerly produced most serious congestion in Old Court House ;

(4) Chitpore Spur : the first instalment of a fine diagonal linking up Central Avenue with the proposed Howrah Bridge Approach Road and thus with Old Court House Street ;

(5) Maniktala Spur : a main road 84 feet in width and about $\frac{3}{4}$ mile in length leading from the Central Avenue to Upper Circular Road.

This scheme is practically completed, and when the Maniktala Bridge now under construction is ready and Maniktala Road (in Maniktala) is widened, as proposed by the Trust, the spur will furnish an adequate link between Maniktala and the central area of Calcutta. No thoroughfare will contribute more than this to the development of Maniktala as a business and residential area ;

(6) several open spaces have been provided. The Cossipore-Chitpore Park with an area of 225 bighas cost the Trust over fifty lakhs for acquisition ; levelling, filling-up and planting are still in progress. It will ultimately be the maidan of Northern Calcutta. The Ratan Sarkar Garden Street playground in the very heart of Barabazar has proved the value of the smallest open space in a congested area. The Amherst Street Park is under construction, St. James Square has been completed, and the Kalighat Tramways Depot Square is almost ready for transfer to the Corporation.

Apart from its street scheme, the Trust has been active in its use of section 63 of Act V of 1911 and has aligned a large number of proposed roads. Its main object has been to pave the way for a system of main traffic.

Generally speaking, the planning of subsidiary roads must await the execution of development or improvement schemes. It is clear that the elaborate system of alignments which the Board has planned involves enormous financial commitments, and it is essential that the Board should carefully watch the movements of population and the tendencies to build in different areas, so that steps may be taken to convert an alignment into a street scheme as soon as the acquisition of isolated plots of land becomes uneconomical. The original joint report (drawn up by Mr. Maden, Chief Engineer of the Trust, and Mr. Shrosbree, Chief Valuer) in 1913 proposed a programme involving the construction of 41·81 miles of new and widened roads (including those required for Maniktala). The net cost of the programme was estimated at Rs. 5½ crores. It has since been revised and re-cast, and the long series of alignments which have been prepared and the schemes already executed or under execution show large divergences from the original programme.

By the end of 1925, the Trust had constructed 24·06 miles of new roads and widened 13·52 miles of road. A great many of these roads are subsidiary or development roads with a width of 40 feet, while only 5·8 miles of road 80 feet wide or over have so far been constructed. The Trust programme of alignments provides—in addition to the work already done—for 38·74 miles of roads, of which 6·88 miles are to be 60 feet wide and 25·30 miles to be 80 feet wide or more.

It is roads 60 feet wide or more that count in a modern city, and the programme of 1913 with its total road length of 41·81 miles dealt mainly with arterial roads of this character.

It is clear that the work already executed, important and valuable though it is, constitutes but a small part of the great task committed to the Trust. Yet the capital expenditure of the Trust up-to-date on roads, open spaces and surplus lands amounts to over Rs. 6 crores, against which the only realizable assets are the surplus lands estimated at about Rs. 2½ crores, which the Trust is now endeavouring to sell.

3. **Finance.**—The Trust has in fact reached a critical stage in its finance. Experience has shown that the income of the Trust is not really

adequate for its gigantic task, but it is not likely to obtain new sources of revenue, and it is therefore necessary to consider how its existing revenues can be most prudently spent. Large inroads have already been made on its borrowing capacity, and there is danger, as the Board itself realizes, in capitalizing its remaining free surplus of income over expenditure, which amounts to about Rs. 13 lakhs. The Board, after meeting loan charges and other recurring expenditure on establishment, rent, taxes, etc., has an annual surplus which is available for capital works. If the life of the Board is prolonged, the total amount thus available over a long series of years (say) 40, will evidently be a much larger sum than the Trust could obtain by devoting the whole of that surplus to the service of a loan maturing at the end of that period. The immediate capitalization of its remaining annual surplus by means of a loan with a thirty years' currency would yield under two crores of rupees—a quite insufficient sum for the work which has still to be done.

Judging from past experience, the Trust requires a working capital of at least Rs. 60 lakhs per annum, and the Governor in Council is disposed to think that this result may be achieved, if the Trust can sell its huge holding of surplus lands valued at roughly Rs. 2½ crores within the next five or six years, using the receipts along with the recurring annual surplus to execute new schemes, and thereby render additional surplus lands available for sale. But if the Trust is to complete its task and tide over difficulties which the heavy rates of interest paid for its loans and the depression of the land market have combined to produce, it must undoubtedly concentrate on the larger schemes, which it alone can undertake and refuse to be diverted from its main objects by the lure of lesser schemes, which attract by their popularity, their promise of recoupment, and their comparative lack of difficulty. It is by the big works that the Trust will be judged—its Central Avenue or its Russa Road—and not the widening of Park Street; by the Cossipore-Chitpore open space, and not St. James Square; by the improvement of Maniktala, and not the lay-out of the purlieus of Russa Road.

There is a vast field for the operations of such a body as the Trust in almost every quarter of Calcutta. There is the ever-present danger of forgetting the wood in the contemplation of the trees, and the Governor in Council believes that the measure of success which the Board ultimately attains will depend upon its steady pursuit of a well-considered programme which it refuses to jettison in order to save cheaper wares.

The Governor in Council desires to congratulate Mr. Emerson and Mr. Marr, who held the Chairmanship of the Trust during the period under review, on the steady progress which the Trust has made. As pointed out, the task before the Trust is a heavy one and fraught with many difficulties, but if the finances of the Board are prudently managed there is good reason for believing that the major portion of the big programme which the Trustees have set out to execute will ultimately be carried through.

By order of the Governor in Council,

J. G. DRUMMOND,

Secretary to the Government of Bengal

REPORT ON THE WORKING OF THE LICENSED WAREHOUSE AND FIRE BRIGADE ACT FOR THE YEAR ENDING 31ST MARCH 1926.

NOTIFICATION.

No. 4124 M.—The 3rd December 1926.—The following are published for general information under section 41 of the Licensed Warehouse and Fire Brigade Act, 1893 (Bengal Act I of 1893).

J. G. DRUMMOND,

Secretary to the Government of Bengal.

No. 882M., dated Chinsura, the 13th July 1926.

From—The Commissioner of the Burdwan Division,
To—The Secretary to the Government of Bengal, Local Self-Government Department.

I have the honour to forward herewith a copy of letter No. 946G., dated the 30th June 1926, from the Chairman of the Howrah Municipality, together with two statements, one showing the warehouses licensed under the Fire Brigade Act, I of 1893, in the Howrah Municipality, and the other showing the receipts and disbursements on account of the same for the year 1925-26.

No. 946G., dated Howrah, the 30th June 1926.

From—BABU CHARU CHANDRA SINHA, M.A., B.L., Chairman, Howrah Municipality,
To—The District Magistrate of Howrah.

As requested in your letter No. 1943G., dated the 19th May 1926, I have the honour to submit herewith two statements showing the warehouses licensed under the Fire Brigade Act, I of 1893, and the receipts and disbursements on account of the same for the year 1925-26. The former statement has been prepared in accordance with the instructions contained in the Government of Bengal, Municipal Department, No. 470M., dated the 14th February 1917, to the Commissioner of the Burdwan Division, a copy of which was forwarded under his memorandum No. 137—XXIII-8, dated the 16th February 1917.

The collection of fees worked out to be 94.4 per cent. of the current demand and 66.4 per cent. of the arrear demand as against 87.4 per cent. of the current demand and 92.3 per cent. of the arrear demand of the year 1924-25.

The demand of the year under report amounted to Rs. 25,703 and the collection to Rs. 24,278 as against Rs. 26,631 and Rs. 23,280 for demand and collection, respectively, for the year 1924-25.

The contribution which the Commissioners were called upon to pay for the maintenance of the Fire Brigade amounted to Rs. 56,558.

The direction contained in the first proviso to section 10 of the Act was followed.

No. S. 4367, dated Calcutta, the 22nd November 1926.

From—J. C. MUKERJEA, ESQ., Acting Chief Executive Officer of the Corporation of Calcutta,

To—The Secretary to the Government of Bengal, Local Self-Government Department.

I have the honour to submit the following report, under section 41 of Act I (B.C.) of 1893, for the year 1925-26 in accordance with the instructions contained in Government order No. 387 T.M., dated the 27th May 1910.

2. During the year under report the fees under sections 10 and 24 of the said Act were levied at 10 per cent. on the annual valuation of warehouses, as in the preceding year.

3. A statement showing the receipts and disbursements of the Licensed Warehouse Fund and a list of jute and other licensed warehouses for the year 1925-26, as desired in Government letter No. 469M., dated the 14th February 1917, are appended.

Enclosures—

1. Statement of receipts and disbursements.
2. List of jute warehouses for 1925-26.
3. List of warehouses other than jute for 1925-26.

No. F. B. 868, dated Calcutta, the 21st August 1926.

From—J. E. ARMSTRONG, ESQ., O.B.E., officiating Commissioner of Police, Calcutta,

To—The Secretary to the Government of Bengal, Local Self-Government Department (Municipal Branch).

I have the honour to submit herewith the report of the Chief Officer of the Calcutta Fire Brigade for the financial year ending 31st March 1926.

The Chief Officer's report gives full details of the working of the Brigade.

No. F. B. 842, dated Calcutta, the 14th August 1926.

From—CAPTAIN BERNARD A. WESTBROOK, Chief Officer, Fire Brigade, Calcutta,

To—The Secretary to the Government of Bengal, Local Self-Government Department (Municipal Branch).

(Through J. E. ARMSTRONG, ESQ., O.B.E., officiating Commissioner of Police, Calcutta.)

I have the honour to submit the following report on the working of the Calcutta Fire Brigade during the year ending the 31st March 1926.

The following are the most noteworthy occurrences during the year under review :—

On the 2nd April 1925, a serious fire took place at Nos. 6 and 7, Dhurramtollah Street, at 9-45 P.M. The upper portion of the building was used as a celluloid film store in which some 9,000,000 feet of films were stored, and on the ground floor were various cloth shops and stores. The fire broke out in the film store and spread with remarkable rapidity. The first intimation the Fire Brigade had of the fire was the glare seen by a look-out man at the Fire Brigade headquarters. This was followed almost immediately by fire alarm and telephone messages.

The building was situated in a very congested area. It was separated on the west by a narrow passage only from another film store containing almost as much film, and on the two other sides other inflammable buildings were in close proximity.

The fire was confined to the premises of origin, with the exception of slight damage to the adjoining premises caused by heat. The damage amounted to over Rs. 6,00,000.

On the 4th April 1925, at 3-25 A.M., a fire in a timber yard at Nimtala gave considerable trouble, principally owing to a very late call being received. The timber yard is situated some three miles from the Fire Brigade headquarters, but the first intimation the Fire Brigade had of the fire was the report of the Fire Brigade look-out man who saw the reflection.

On arrival, owing to the intense heat great difficulty was experienced in stopping the fire spreading, and several of the firemen were more or less seriously burned. Fortunately a good supply of water was available, and in a short time seven fire engines were got to work and succeeded in preventing the fire from spreading. The timber yard is in the centre of a very congested area which forms a danger zone.

The other timber stores on the opposite side of the streets on the west and south were actually ignited, but the damage to them was nominal.

The total damage amounted over Rs. 1,00,000, and the damage caused by the two fires mentioned above accounts for over half of the damage which accrued during the whole year.

But for the late call received in the second case the damage would probably have been slight.

On January 23rd, 1926, the Fire Brigade was called to assist in the rescue of some men who were gassed in a sewer in Howrah. Unfortunately the information was not given to the Brigade until a considerable time had elapsed after the men were found to be missing, and on arrival at the scene no definite information could be obtained as to the whereabouts of the men. Search was made and eventually seven bodies were recovered. Artificial respiration was tried without result.

Apart from the foregoing the work during the year has been of a normal nature.

2. **Financial statement.**—The statement of receipts and expenditure and payments made by the municipalities within the jurisdiction of the Fire Brigade and Licensed Warehouse Act, I of 1893, is given in Appendix I.

3. **Fires, etc.**—The total number of calls for fires or supposed fires was 595, being an increase of 36 as compared with the previous year and an increase of 169 over the average for the past fifteen years.

The number of false alarms given wilfully has increased from 63 during the preceding year to 115 in the year under review.

False alarms due to electrical defects have decreased from 47 to 32, and false alarms caused by lightning on the fire alarm circuits have increased from 4 to 14.

Included in the number of false alarms given wilfully are 3 false alarms given from private telephones through the Telephone Exchange. In such cases suitable action has been taken by the Bengal Telephone Company.

The number of actual fires is 23 less than that in the preceding year.

The calls are classified as follows :—

Fires	417
False alarms, wilful	115
False alarms, with good intent	13
False alarms due to electrical defects	32
False alarms caused by lightning on the fire alarm circuits	14
Calls for special service	4
						595
On 110 days one fire or supposed fire occurred	110
On 73 " 2 fires or supposed fires occurred	146
On 48 " 3 ditto	144
On 23 " 4 ditto	92
On 9 " 5 ditto	45
On 5 " 6 ditto	30
On 4 " 7 ditto	28
						595

The actual number of calls received during the year was 964 as compared with 773 in the previous year. These figures include instances where more than one call was received for the same fire, and are given so that the means by which these calls were received can be classified.

These calls were transmitted as follows :—

Four hundred and nineteen (314 in 1924-25) by street fire Alarms; 470 (389 in 1924-25) from private telephones through the Bengal Telephone Company's and Government Exchanges; 24 (25 in 1924-25) from police and direct fire telephones; 23 (21 in 1924-25) by messengers giving information at Fire Brigade stations, and 28 (15 in 1924-25) from Fire Brigade look-out men at the various stations.

Twenty-nine fires occurred in premises licensed under the Licensed Warehouse and Fire Brigade Act, I of 1893, as compared with 25 in the previous year.

In 217 cases fires were extinguished by means of first-aid machines, chemical fire extinguishers, buckets of water, by individual firemen, or by the occupants before the arrival of the Fire Brigade; in 66 cases by one motor fire-engine; in 33 cases of electrical fires the switches were cut out; in 31 cases sand was used; in 24 cases by lines of hose from hydrants; in 14 cases by two motor pumps; in six cases by one motor pump and hydrants; in five cases by two motor pumps and hydrants; in five cases by the fire-float only; in four cases by three motor pumps; in four cases by two motor pumps and fire-float; in two cases by two motor pumps, hydrants and fire-float; in one case by fire-float and ship's appliances; in one case by one motor pump and fire-float; in one case by two motor pumps and fire-float; in one case by hydrants and first-aid machines; in one case by seven motor pumps. There were two cases of burning rubbish where appliances were not used.

4. **Fire loss.**—The total damage caused by fire and water during the year has been estimated at Rs. 11,38,812 as compared with Rs. 3,10,308 during the previous year, being an increase of Rs. 8,28,504. The average damage per fire is Rs. 1,914 as compared with an average of Rs. 3,304 during the past fifteen years.

The average fire loss per annum during the past fifteen years is Rs. 14,02,282.

The fire loss per fire is classified as follows :—

279	fires under	Rs. 100.
85	" from	Rs. 100 to Rs. 1,000.
35	" "	Rs. 1,000 to Rs. 5,000.
13	" "	Rs. 5,000 to Rs. 20,000.
2	" "	Rs. 20,000 to Rs. 1,00,000.
3	" above	Rs. 1,00,000.

5. The following summaries are given in the appendices as under :—

District in which fires or supposed fires occurred	... II
Damage caused by fire, etc., in various districts	... III
Short reports of fires of Rs. 20,000 damage and over	... IV
Number of 'Turn-outs' from each station	... V
Causes of fires, and classes of buildings affected	... VI

6. **Appliances.**—The following is a list of the principal appliances now in commission by the Calcutta Fire Brigade.

Fourteen motor fire-engines, as follows :—

One motor pump, 600-800 gallons per minute capacity fitted with scaling ladders, etc. (Motor pump No. 2.)

Two motor pumps, 500-700 gallons per minute capacity, fitted with 55 feet telescopic fire escapes, first-aid cylinders and reels, scaling ladders, etc. (Motor pumps Nos. 1 and 15.)

Two motor pumps, 450-550 gallons per minute capacity, fitted with telescopic ladders, first-aid cylinders and reels, scaling ladder, etc. (Motor pumps Nos. 9 and 10.)

Three motor pumps, 450 gallons per minute capacity, fitted with scaling ladders, etc. (Motor pumps Nos. 8, 11 and 14.)

Three motor pumps, 400-500 gallons per minute capacity, fitted with telescopic ladders, first-aid cylinders and reels, etc. (Motor pumps Nos. 5, 6 and 7.)

One motor pump, 350-450 gallons per minute capacity, fitted with ladder, scaling ladders, etc. (Motor pump No. 4.)

One motor pump, 250 gallons per minute capacity, fitted with telescopic ladder, first-aid cylinder and reel, etc. (specially designed for use in narrow streets and congested areas. (Motor pump No. 6.)

One motor trailer pump, 250 gallons per minute capacity specially designed for use in positions that cannot be reached by the ordinary type of motor fire-engine).

One mechanically operated 85 feet *motor turntable ladder*, one *motor emergency tender*, fitted with telescopic ladder, scaling ladders, etc., carrying smoke helmets and breathing apparatus, spare hose, and all apparatus necessary for salvage and demolition work, one *motor lorry*, two *motor cars*, two hand-drawn *steam fire-engines*, one 60 feet *turntable ladder* converted for towing behind motors, 26 hook ladders, 54 scaling ladders, 7 smoke helmets and breathing apparatus, 53,625 feet of 2½-inch unlined canvas hose, etc.

They are distributed as follows :—

Headquarters.—Five motor fire-engines (Nos. 2, 5, 8, 9 and 15); one motor trailer pump; one motor emergency tender; one motor lorry; two motor cars; 16 hook ladders; 20 scaling ladders; 5 smoke helmets; and 13,500 of 2½-inch canvas hose.

Central Avenue.—Four fire-engines (Nos. 1, 3, 10 and 11); one 85-foot mechanically operated motor turntable ladder; one 60-foot turntable ladder; 7 hook ladders; 20 scaling ladders; 2 smoke helmets; and 12,175 feet of canvas hose.

Chitpore.—Two motor fire-engines (Nos. 4 and 7); 2 hook ladders and 6 scaling ladders; and 6,750 feet of canvas hose.

Howrah.—Two motor fire-engines (Nos. 6 and 14); 1 hand-drawn steam fire-engine; 1 hook ladder; 9 scaling ladders; and 6,375 feet of canvas hose.

Garden Reach.—One hand-drawn steam fire-engine and 1,725 feet of canvas hose.

During the year the one remaining horse-drawn steam fire-engine has been disposed of.

One new motor fire-engine and one fire service tender fitted with Tamini motor pump have been placed in commission.

It is estimated that the motor appliances travelled 13,244 miles during the year going to and returning from calls.

7. **Fire Station.**—Appendix V gives the number of times each fire station has been turned out in response to fire calls, together with monthly statements.

Fire Brigade headquarters is still located in rented quarters in Corporation Place, and economy could undoubtedly be effected if a convenient site were purchased and suitable buildings erected thereon.

In this connection a reserve building fund is being created by placing a sum of money yearly to this fund, and at present Rs. 60,000 is invested in 5 per cent. Government Bonds. It is proposed to provide for another Rs. 30,000 during the forthcoming year.

The premises occupied at present are unsuitable, and the accommodation is most inadequate. Further, no drill yard is available at this station, and the men have to be drilled on the public thoroughfare.

The large rent paid is a considerable tax on the Fire Brigade funds, and it is hoped that a suitable site will be secured at no far distant date and proper premises erected.

During the coming year it is anticipated that the hand-drawn steam fire engine at the Garden Reach fire station will be replaced by a motor fire-engine and a suitable staff provided.

This station protects a large area including the Docks, Garden Reach, Matiabruz, and the new added area extending over many miles.

For the better protection of the Burra Bazar area and the district to the north thereof, including Nimtolla, Sovabazar, etc., a new fire station is urgently required. Endeavours will be made to find a suitable site, and an estimate will be submitted at a later date.

At present, owing to the congestion of traffic in this part of the city, much valuable time is often wasted in arriving at a fire.

8. **Staff.**—The strength of the Brigade remains the same as at the commencement of the year, viz., 225.

The conduct and discipline throughout the year has been excellent.

On the 31st March 1926, the Second Officer, Mr. W. Jarrett, proceeded on leave on medical grounds, and it is probable on the expiration of this leave he will apply for pension.

Mr. Jarrett joined the Fire Brigade in 1904, and has rendered excellent service ever since.

In 1920 he was promoted to Second Officer, and on various occasions he has officiated as Chief Officer in a very competent manner.

It is to be regretted that ill health has rendered it necessary for him to sever his connection with the department in which he took the keenest interest.

Mr. A. Frederick (late officiating Chief Engineer) has been promoted officiating Second Officer, and Mr. C. Meyers (late Inspector of Warehouses, etc.) has been promoted to the rank of officiating Chief Engineer.

9. **Fatalities and accidents.**—During the year under review the total number of lives lost at fires was 13 (of which 3 were cases of suicide by burning) as compared with 11 during the previous year. Twenty-six persons were injured at fires. (See Appendix VI.) In all cases first aid was rendered, and the injured person conveyed to hospitals where necessary.

Seven persons who were asphyxiated in sewer at Howrah on the 23rd January 1926 are not included in the foregoing figures.

10. **Horses.**—At the commencement of the year three horses were in commission. These have now been disposed of, together with all horse-drawn appliances, so the Brigade is now completely motorised.

11. **Water-supply.**—It is with considerable satisfaction I am able to report a very great improvement in the water supply so far as the city of Calcutta is concerned. Electrically driven pumps have been installed in the pumping stations at Mullickhat and Watgunge, and throughout the year practically no trouble has been experienced with water in the area referred to.

On several occasions it has been necessary to close down the pumping stations for a period of several hours to make necessary alterations in the distributing mains, etc. This has caused considerable anxiety, as should a serious fire occur during the time the water is not available a conflagration must inevitably result.

Elaborate arrangements were made to endeavour to deal with any emergency during these periods, such as conveying over a mile of hose on a Fire Brigade lorry to calls, equipping all fire-engines with all available chemical fire extinguishers, and locating motor pumps so that

they would be available to pump in relays to any part of the city, should the occasion demand. I am happy to say that all cases of fire which occurred during the periods mentioned were dealt with by means of first-aid apparatus, and no serious fires developed.

It is anticipated that such shut-downs will have to take place on three or four more occasions before the mains and distributing mains are relaid in accordance with the plans of the Corporation, and everything possible will be done to safeguard the city.

Supervision in maintaining the hydrants, etc., in a good and proper state or repair appears to be considerably lacking, as on many occasions difficulty has been experienced through hydrants being out of order, thus causing delay in getting to work at fires.

Until proper supervision is exercised and regular inspections are made by competent Corporation officials, the difficulty with hydrants will continue as the class of Indians employed in street watering (for which the unfiltered water-supply is issued) is extremely careless, and apparently fails to report hydrants which are out of order.

I regret to say that the conditions appertaining to Cossipur-Chitpore and Howrah remain the same, and the remarks made in previous reports in the connection apply in their entirety.

In these areas no system of water-supply is provided, and the Fire Brigade has to rely upon tanks in the locality. These tanks are gradually being filled up as the ground becomes more valuable, and the sites are then used for building purposes. Thus the situation is becoming worse and worse, with the result that the greatest difficulty is often experienced in dealing with fires in these areas. It is no unusual occurrence to use as many as 300 lengths of hose, as the supply of water often is at such a great distance from a fire.

Unless action is taken the time will soon arrive when the Fire Brigade will be powerless, and extremely serious fires must result.

I understand that a scheme has been drawn up for the installation of mains in the Chitpur-Cossipore area, and I trust this will be expedited as much as possible.

12. Fire Float.—The fire float (5,000 gallons per minute capacity) is stationed on the river opposite to Princep's Ghat. On several occasions it has saved serious situations by pumping water from the river to feed the land fire-engines.

It was turned out on 26 occasions during the year under review.

13. Street fire-alarms, telephones and electrical communication.—I am pleased to report that all street fire-alarms, telephone, etc., have been maintained in a good and satisfactory state of repair and efficiency by the Bengal Telephone Company, and the thanks of the Fire Brigade are due to the telephone operators and the staff of the Company for their prompt attention and ready assistance on all occasions.

Four hundred and nineteen calls were received over the fire-alarm system, and the rapidity by which a fire call can be transmitted direct to the Fire Brigade by this means has undoubtedly saved many a serious fire. It is evident that the fire-alarm system is thoroughly appreciated by the public.

Regarding wilful false alarms given over the fire-alarm system I regret to state that no less than 115 have been received. This is an increase of 52 over that received during the previous year.

It is hoped that the public will co-operate with the Fire Brigade in checking this mischievous and dangerous practice by detaining anyone they may see giving a wilful false alarm until the arrival of the Fire Brigade, when suitable action will be taken.

It should be remembered that during the time fire appliances are responding to such false alarms they are not available for actual fire calls, and serious situations may result owing to such machines not being available.

14. Inspection Department.—Theatres, etc., are now inspected by an official appointed by the Corporation. This official is not under the direction of the Fire Brigade. It is hoped that a proper standard of efficiency will be maintained as the lives of a great proportion of the population are endangered when attending theatres, etc., if the bye-laws for safeguarding such premises against fires are not adequately carried out. This particularly applies in the Indian portion of the city where the theatres are of a very inflammable nature, and over-crowding is prevalent.

In connection with the Licensed Warehouse and Fire Brigade Act, 1 of 1893, 5,975 inspections of warehouses have been made during the year; 500 applications for license and complaints have been attended to and disposed of; 288 prosecutions were made under section 14 of Act 1 of

1893, which resulted in 152 persons being fined amounts aggregating in all Rs. 1,604 ; 30 persons being warned, 17 discharged, 26 withdrawn and acquitted, and 63 cases being filed, no trace being found of the accused.

15. **General.**—The Calcutta Fire Brigade protects the city of Calcutta and the municipality of Howrah, and may attend fires outside the boundaries of the above (but not exceeding a radius of 6 miles from the central fire station), provided that appliances can be spared, on payment of a prescribed fee, thus covering an area of some 120 square miles.

16. **Ambulance Department.**—The motor ambulance service has been of great value to the general public and responded to 12,721 calls during the year.

The staff of the department consists of 10 drivers and 20 attendants with 12 motor ambulances.

The service is financially maintained by Government and the Corporation of Calcutta in the proportion of one-third and two-thirds, respectively. The receipts during the year including the contribution of Government amounted to Rs. 14,438. The total expenditure was Rs. 70,691, the balance of Rs. 56,253 being met by the Corporation of Calcutta.

DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 2th December 1926.

Summary.—Weather continued dry. Sowings of spring crops are approaching completion. Harvesting of winter paddy and potatoes is progressing. Preparatory tillage for summer rice has commenced in some districts under favourable conditions. The state and prospects of standing crops are generally hopeful except in Malda where the condition is bad for want of rain. The average price of common rice for the province has fallen by about 1·51 per cent, as compared with that of the previous week.

Third Forecast of the Cotton Crops of Bengal, 1926-27.

(NOTE.—On an average of the five years ending 1924-25, the area under the cotton crops in Bengal has represented some 0·2 per cent. of the total area under cotton in India.)

There are two crops—early and late. The “early” crop is chiefly grown in the Chittagong Hill Tracts and in the Tripura State and to a small extent also in other districts. The “late” crop is chiefly grown in Bankura and Midnapore.

Character of the season.—During the initial stages the condition of the early crop was not favourable owing to scanty rainfall. Although subsequent weather conditions favoured the growth, the crop was greatly affected by flood in parts of Midnapore and by excessive rain in the Tripura State. In the Chittagong Hill Tracts, the weather was favourable throughout. The prospects of the late crop are satisfactory.

Area sown.—The total area sown with early cotton is returned at 163,106 acres and that with late at 803 acres against 163,575 acres (revised) and 1,563 acres, respectively, in the corresponding forecast of last year.

Outturn.—The outturn of the early crop is estimated at 60,262 bales and the late crop at 80 bales, against 60,689 bales (revised) and 348 bales, respectively, in the corresponding forecast of last year.

DEPARTMENT OF AGRICULTURE, BENGAL.

Final forecast of the *Bhadol* crops of Bengal, 1926-27.

(NOTE.—On an average of the five years ending 1924-25, the area under autumn rice in Bengal has represented some 6·2 per cent. of the total area under rice in British India.)

Character of the season.—The season opened with good rainfall in March facilitating preparatory tillage and early sowings. Prolonged drought in the next three months somewhat retarded later sowings and growth of germinated crops. With monsoon showers in July, the crops improved, but excessive rainfall in August and consequent flood caused damage in some West and East Bengal districts. Subsequently occasional showers with alternate sunshine in September greatly helped the recovery of standing crops in some West Bengal districts, but this does not apply to the flooded areas of Midnapore. A fair crop has been reaped for the Province, as a whole.

Acresage.—The total acresage sown with the different *bhadol* crops this year is reported to be 5,762,400 acres as against 5,903,400 acres for last year. Of this, the area under autumn rice is estimated at 5,015,400 acres as against 5,139,200 acres last year.

Outturn.—According to the District Officers' estimates, the outturn of autumn rice for the Presidency works out at 79 per cent. of the normal and that of all the different *bhadol* crops together at 78 per cent. as against 73 per cent. last year.

Accepting 79 per cent. as the outturn of autumn rice, the gross outturn of the crop for the Presidency, on the basis of a normal yield of 10½ maunds of clean grain per acre, is estimated at 1,564,700 tons this year as against 1,481,500 tons last year.

ROBERT S. FINLOW,

Director of Agriculture, Bengal.

Dacca, the 18th December 1926.

Medinipur.	<i>Bhadol</i> paddy (autumn rice).	641,500	505,100	534,500	76	93	Last week of August. Normal.	The increase in area under <i>bhadol</i> paddy compared with last year is due to favourable sowing season. Want of rain was felt in June and July in some parts. Subsequent rains, however, improved the state of the crops materially. But for the late rains the outturn could have reached the normal, if not more.

The decrease in area as compared with that of the last year is due to unfavourable weather at sowing time. During the period of growth, however, the weather became favourable. A slight damage was done by flood and by occasional drought causing the outturn to fall below the normal.

Second Forecast of the Winter Rice Crop of Bengal, 1926-27.

(NOTE.—On an average of the five years ending 1924-25, the area under winter rice in Bengal has represented some 18·7 per cent. of the total area under rice in British India.)

Character of the season.—As reported in the first forecast, good rain in March favoured preparatory tillage for deep water paddy and with a continuance of similar conditions sowings of this crop were completed in East and North Bengal in early April. In West Bengal, prolonged drought adversely affected paddy seed-beds in places, but subsequent rains facilitated the transplantation of seedlings until early August, when heavy rain with some flood occurred. The flood soon subsided in most places except in parts of Midnapore, where the crop was considerably damaged. In East and North Bengal, transplanting operations were hampered by lack of timely rain in June and early July, but conditions improved later on, resulting in good progress in East Bengal. In North Bengal, drought in late August further delayed transplantation, but favourable rain in early September, however, improved the situation. In West and North Bengal insufficient rain in October caused some damage to the final development of the crop, but, on the whole, a good crop is expected in East and West Bengal, and a satisfactory one in North Bengal.

Acreage.—According to the estimates returned by the District Officers, the total area under winter rice is 14,159,400 acres, as compared with 15,516,300 and 15,619,300 acres in the corresponding and final forecasts of last year.

Outturn.—From the summary of the district returns appended, it will appear that only Bankura reports more than a normal crop, i.e., 125 per cent. Four districts, viz., Khulna, Rangpur, Pabna and Bakarganj report a normal crop. Fourteen districts report a crop varying from 83 to 99 per cent. and the rest from 52 to 75 per cent. According to the above estimates, the provincial outturn works up to 88 per cent. as against 92 per cent. of normal estimates in the corresponding and final forecasts of last year.

Accepting 88 per cent. as the provincial outturn the gross yield of the crop, on the basis of a normal yield of 12½ maunds of clean grain per acre, is estimated at 5,721,600 tons this year as against 6,554,800 and 6,598,400 tons, respectively, in the corresponding and final forecasts of last year.

	Acres.	Acres.	Acres.				
24-Parganas ...	240,600	749,800	620,000	83	92	Not yet commenced	The decrease in area is due to want of timely rain. The weather has been favourable. The outturn is anticipated to fall a little below the normal owing to untimely rains and heavy rains later on.
Nadia ...	128,800	130,900	132,000	67	83	Ditto	The weather has been favourable but the outturn is anticipated to fall below the normal for late sowing and transplanting.
Murshidabad ...	351,400	276,200	290,000	83	67	Ditto	The weather has not been favourable. The outturn is anticipated to fall below the normal owing to occasional drought and floods which caused some damage.
Jessore ...	658,800	474,900	399,200	72	78	November. Normal.	The decrease in area is due to extensive cultivation of jute. The weather has been fairly favourable since the submission of the first forecast. The outturn is anticipated to fall below the normal owing to insufficient rain.
Khulna ...	908,300*	722,700	899,000	100	100
Bardwan ...	731,100	693,200	731,400	75	93	Not yet commenced	The increase in area is due to sufficient rains. The weather has been favourable but drought in Asansol has caused some damage.
Birbhum ...	604,700	537,000	547,900	67	92	Latter part of November, a little early.	The weather has been unfavourable. The outturn is anticipated to fall a little below the normal owing to want of rain in October causing a little damage.
Bankura ...	440,000	320,000	374,600	54	125	End of November. Normal.	The increase in area is due to sufficient rainfall. The weather and its effects on the cultivation and growth of the crop have been favourable. The outturn is anticipated to be above the normal as the rainfall was adequate and well distributed.
Midnapore ...	1,637,100	1,411,800	1,152,600	75	83	Ditto	The decrease in area is due to drought in June and subsequently heavy down-pour in July. The weather has been favourable but in some parts want of rain was felt. More than one-third of the total area in the Contal subdivision has been damaged by the recent floods. The outturn is consequently anticipated to fall below the normal.
Hooghly ...	352,100	142,000	197,800	67	98	Not commenced yet.	The increase in area is due to favourable weather condition. Damage to the extent of about one anna has been caused by flood in Arambagh subdivision. The outturn is expected to fall a little below the normal owing to late transplantation.
Howrah ...	117,000	92,700	90,600	83	92	Ditto	Excessive rain in the Uluberia subdivision has caused some damage to the seedlings on low land but the weather changed for the better later on.
Rajshahi ...	822,700	926,400	888,400	83	75	December. Normal.	The large decrease in area is due to more extensive cultivation of jute this year and to unfavourable weather on account of insufficient rainfall at the time of sowing and transplantation. The increase in area as compared with the estimate in the first forecast is due to further transplantation. Some damage is reported from Nator.
Dinajpur ...	1,026,300	986,000	876,000	75	82	Not yet commenced	The decrease in area is due to want of timely rainfall. The weather has not been at all favourable. Some damage has been caused in Thakurgaon subdivision and in Birai police-station by drought and insect-pests respectively. The outturn is anticipated to fall much below the normal owing to deficient rainfall.

DEPARTMENT OF AGRICULTURE, BENGAL.

First forecast of the Spring Oilseed Crops of Bengal, 1926-27.

(NOTE.—On an average of the five years ending 1924-25, the area under linseed in Bengal has represented some 8·6 per cent. and that under rape and mustard 12·4 per cent. of the total area under these crops in British India.)

Explanatory.—Three forecasts are issued for the spring oilseed crops. The present one deals with the area sown and the general condition of the crops.

Area sown.—Oilseeds are grown chiefly in the Rajshahi, Dacca and Presidency Divisions. In the other two divisions, the cultivation is small. The total area under these crops (excepting sesamum for which separate forecasts are issued) is returned at 924,200 acres this year as against 897,000 and 900,100 acres, respectively, in the corresponding and final forecasts of last year.

Character of the season.—The rainfall during September and the early part of October was sufficient for the preparatory tillage and subsequent dry weather facilitated sowings which were normal. The present outlook is fair on the whole except in parts of Dinajpur where the condition of the crops is reported to be poor owing to unfavourable weather.

CALCUTTA, the 17th December 1926.

DEPARTMENT OF AGRICULTURE, BENGAL.

Monthly Weather and Crop Report of Bengal for November 1926.

I. **Character of the season.**—The rainfall during the month was markedly in defect of the normal, the precipitation everywhere being below the average. The usual rainfall statement is appended.

II. **Progress of agricultural operations.**—Harvesting of winter paddy continued under favourable conditions in North and East Bengal. In West Bengal reaping had just commenced. There was good soil-moisture for transplantation of tobacco seedlings and sowing of potatoes and other spring crops.

III. **State of standing crops.**—The condition of sugarcane and other standing crops was favourable except in some West Bengal districts, where transplanted paddy suffered from lack of rain.

IV. **Prospects and probable outturn.**—The prospects of winter paddy were generally fair except in parts of West Bengal, Mymensingh and the Tripura State where damage by drought or insects was reported. The outturn of the *bhadoi* crops is estimated at 78 per cent. and that of the winter paddy is expected to be 88 per cent. of the normal.

V. **Damage to standing crops.**—Damage to winter paddy by insects was reported from parts of Mymensingh and to paddy and *til* crops by insects and rats from the Tripura State. Transplanted paddy also suffered from lack of rain in some tracts.

VI. **Condition of agricultural stock.**—The condition of live-stock was generally fair. Cattle-disease was reported from nine districts. Outbreak of rinderpest in an epidemic form was reported from Sunderbans area in the district of Bakarganj.

VII. **Failure of pasturage and fodder.**—No insufficiency of fodder was felt except in parts of Murshidabad.

VIII. **Prices of food-grains.**—During the second fortnight of the month the price of common rice of the cheapest quality rose in 3 districts, fell in 8 and remained stationary in the rest of the Presidency. The prices ranged from 5 seers at Rangpur, Pabna, Malda and Faridpur to 7 seers at Chittagong.

IX. **Condition of agricultural population.**—The condition of agricultural population was reported to be fair on the whole.

A

BILL

to amend the Bengal Cruelty to Animals Act, 1920.

WHEREAS it is expedient to amend the Bengal Cruelty to Animals Act, 1920, in the manner herein-after appearing;

It is hereby enacted as follows:—

1. This Act may be called the Bengal Cruelty to Animals (Amendment) Act, 1926.

2. For clause (2) of section 3 of the Bengal Cruelty to Animals Act, 1920 (hereinafter referred to as the said Act), the following shall be substituted, namely:—

“(2) ‘Calcutta’ means the area defined in clause (11) of section 3 of the Calcutta Municipal Act, 1923.”

Amendment of section 3 of Bengal Act I of 1920.

Insertion of
new section 12A.

3. After section 12 of the said Act, the following shall be inserted, namely:—

“ 12A. If any person employs a buffalo for draught purposes between such hours during such period as may be prescribed he shall be punished for every such offence with fine which may extend to fifty rupees.”

Penalty for working buffaloes during prohibited period.

Amendment of
section 19.

4. In section 19 of the said Act—

(1) in sub-section (1) for the words beginning with “if not removed” and ending with “police-station,” the following shall be substituted, namely:—

“the weighbridge-officer shall by written notice direct the owner of the load to remove it from the weighbridge within a period to be specified in such notice”

(2) after sub-section (1) the following sub-sections shall be inserted, namely:—

“(1a) At any time before the expiration of the period referred to in sub-section (1) the owner of the load may remove it free of charge from the weighbridge.

(1b) The weighbridge-officer may, at the request of the owner of the load referred to in sub-section (1), forward the load to its destination on payment by the owner of all costs incurred or liable to be incurred in its removal, detention and forwarding.

(1c) If the load is not removed from the weighbridge within the period referred to in sub-section (1) it shall be made over by the weighbridge-officer to the police or any person duly authorised by the local Government in this behalf.”

(3) to sub-section (2) the following words shall be added, namely:—

“free of charge.”

(4) in sub-section (3)—

(a) for the words beginning with “The officer in charge of the police-station” and ending with “forty-eight hours” the following shall be substituted, namely:—

“(a) The officer in charge of the police-station or the person authorised under sub-section (1), in the case of any load made over to him by the weighbridge-officer, and

(b) The officer in charge of the police-station, in the case of any load kept by him under sub-section (2) which has not been removed by the owner within forty-eight hours,

shall”

(b) after the words “the Commissioner of Police” in the two places where they occur, the words “or the person authorized by the local Government in this behalf” shall be inserted; and

(5) after sub-section (3) the following sub-section shall be added, namely:—

“(4) All costs for the removal, detention and forwarding of all loads under this section shall be payable by the owner of the goods according to such scale of rates as the local Government may prescribe by rules made under section 29.”

5. In section 20 of the said Act—

Amendment of
section 20.

(1) after the words "the Commissioner of Police" the words and figures "or the person authorized under sub-section (3) of section 19"; and

(2) after the words "of the load, the Commissioner" the words "or the person authorised, as the case may be"

shall be inserted.

6. In sub-section (2) of section 29—

Amendment of
section 29.

(1) after clause (b) the following shall be inserted, namely:—

"(bb) prescribing the period during which and hours between which buffaloes shall not be used for draught purposes;" and

(2) after clause (h) the following shall be inserted, namely:—

"(hh) prescribing the scale of rates of all costs and charges payable under section 19."

7. In section 35 of the said Act, for the words and figures "the Calcutta Municipal Act, 1899" the words and figures "the Calcutta Municipal Act, 1923" shall be substituted.

Amendment of
section 35.

STATEMENT OF OBJECTS AND REASONS.

The Bengal Cruelty to Animals Act, which was passed in 1920, has so far remained inoperative owing to the difficulty in finding a suitable agency to administer its provisions. The original idea was that it should be administered through a City Veterinary Department, which the Corporation contemplated establishing, and provision was made under section 30 for the delegation of the powers under it to any person or local authority. The City Veterinary Department has not, however, materialised yet, and Government, therefore, propose to entrust the administration of the Act to the Society for the Prevention of Cruelty to Animals. The Act has been examined from this point of view and certain amendments are found to be necessary before it can be brought into force.

2. Under sections 16 and 18 a police officer, or any other person duly authorised by the local Government, may take a bullock cart to a weighbridge and the excess load removed under section 17 has to be kept at the weighbridge for 48 hours and, if it is not claimed during this period, it has to be removed to the nearest police-station and there kept in the custody of the officer in charge on his own responsibility until removed by the owner. Now it is impossible for the police to provide godowns for the storage of these goods or to deal with the handling of them: nor is it reasonable that the officer in charge of the police-station should be held responsible for their custody. The Society are prepared to provide two central godowns, they are prepared to put men in charge of them and to deal entirely with the custody and delivery of the loads, but under the law they cannot do so because the load must be removed after 48 hours to the nearest police-station, and it is only an officer in charge of a police-station who can be made responsible for their custody. The Bill provides for the removal of these loads from the weighbridge direct to a central godown and for their storage there until the owner claims them. It authorises Government to make any person other than an officer in charge of a police-station responsible for the custody of the goods. It further empowers Government to appoint some one other than the Commissioner of Police to perform the functions imposed on the Commissioner of Police under sub-section (3) of section 19. Finally, under these sections as they stand, the charge for removal and detention of the loads can be levied on the owner only after the goods have been removed to a police-station on the expiry of 48 hours. It is reasonable that the whole cost of handling the goods and conveying them to the central godown should be liable to be recovered from the owner and provision has been made in the Bill to this effect, but there will be no charge if the goods are removed within the period specified in the notice of the weighbridge officer.

3. Much attention has been directed lately to the cruelty involved in the use of buffaloes for draught purposes in the middle of the day in the hot season: opportunity has been taken to penalise such practice by providing a clause in the Bill.

No. 4420 Pl.—The 1st October 1926.—Whereas the Governor in Council is satisfied, for the reasons hereinafter set forth, that the public tranquillity and security of life and property in the Presidency Area are endangered:

Now therefore, in exercise of the powers conferred by section 3 of the Presidency Area (Emergency) Security Act, 1926 (Bengal Act III of 1926), the Governor in Council declares that a state of emergency exists.

Reasons.—A state of emergency was declared to exist on the 25th May 1926 and section 4 of the Presidency Area (Emergency) Security Act, 1926, remained in force until the 24th August 1926. Since that date communal tension in Calcutta has still persisted and a considerable number of persons who are likely to contribute to disorder and to control whose movements the Act was passed, have returned to Calcutta and are a danger to public tranquillity; while the riot which occurred at Kidderpore on the 5th September has shown that the security of life and property in the Presidency Area are endangered. This danger is likely to be enhanced during the period of the Durga and Lakshmi Pujas when many religious processions will be taken through the streets. The Governor in Council is satisfied that public tranquillity and the security of life and property are endangered in the Presidency Area and therefore declares that a state of emergency exists.
